SAMIRA

PROFILE

Gender : Female
Age : 18
Education : 1 -st year Communication Student HBO
Occupation : Part-time sales assistant (weekends)
Address : Utrecht

BIOGRAPHY

Samira is 18 years old, lives in Utrecht, and studies Communication. She works part-time in a clothing store on weekends. She spends a lot of time on TikTok and Instagram and enjoys going out with friends. Samira wants to be well-prepared for her first voting experience, but politics often feels complicated and boring to her.

MOTIVATIONS

- Quick and easy-to-understand explanations of political topics
- Tools that help her make decisions (e.g., quizzes)
- Fun and accessible experiences, preferably visual and interactive
- Being able to discuss politics with friends
- Curious about how her region votes compared to other

GOALS

Understand political parties without prior knowledge

Feel confident casting her first vote

Find a party that aligns with her values and future priorities

Look up how her preferred party scored in her own city/province last year

FRUSTRATIONS

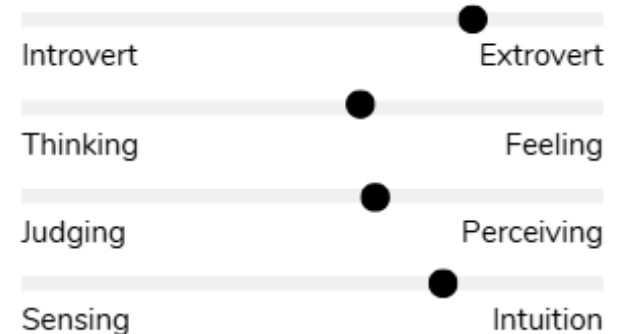

Long and complicated texts

Political jargon that's hard to understand

Outdated, boring, or unclear websites

Feeling lost or overwhelmed

SHELLY

PROFILE

Gender : Female
Age : 20
Education : Pursuing a university degree in
bestuurskunde
Occupation : Interning at her municipality
Address : Schagen

BIOGRAPHY

Shelly is currently doing an university study in the Netherlands, she works by interning in her local municipality with her favoured political party. Shelly is interested in political activism and organized political events she's somewhat knowledgeable on politics. She likes engaging in political discourse and peaceful -activism and -protest
Shelly thinks its important to connect to similarly minded people who align with her politics. Organizing and attending events for activism.

MOTIVATIONS

After she interned at her municipality she developed an interest in politics when she interacted with someone working for one of the political parties.

She also cares a lot about activism and believes politics is a way for her to help the causes she believes in.

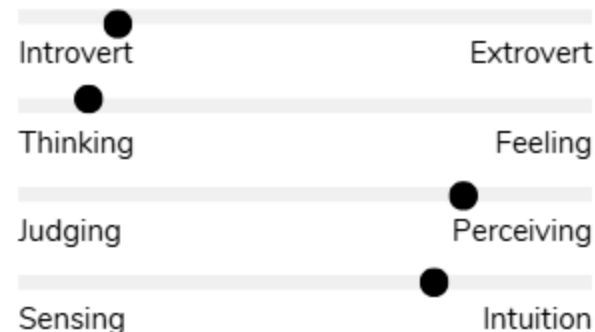

GOALS

The way we could cater to Shelly is by having a good discussion board that allows people to connect

FRUSTRATIONS

Shelly does not like toxicity on de website . so we have to make sure that our forum stays a safe learning environment

DANIEL

PROFILE

Gender : Male
Age : 22
Education : HBO Creative Business
Occupation : Freelance videographer + part-time barista at a coffee shop
Address : Rotterdam

BIOGRAPHY

Daniel is 22 and lives in Rotterdam. He studies Creative Business (3rd year) and works as a freelance videographer and part-time barista in a coffee shop. In his free time, he likes filming street content, going to music events, gaming with friends, and collecting sneakers.

MOTIVATIONS

Daniel is creative and curious. He wants to understand politics, but only if it's explained in a way that feels real and easy to follow. He prefers short videos or visual content instead of long texts.

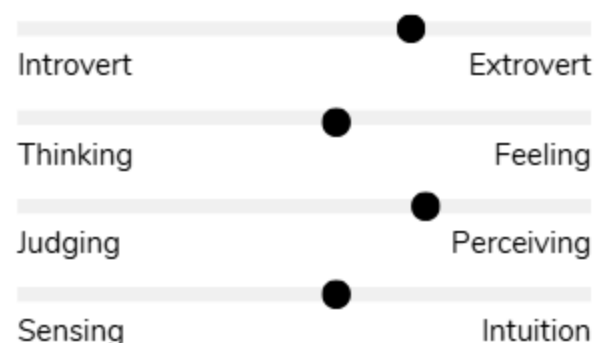

GOALS

Find out which political parties care about culture and creative industries
Understand what politics means for housing (rent is very high in Rotterdam)
Be able to vote for the first time with confidence instead of guessing

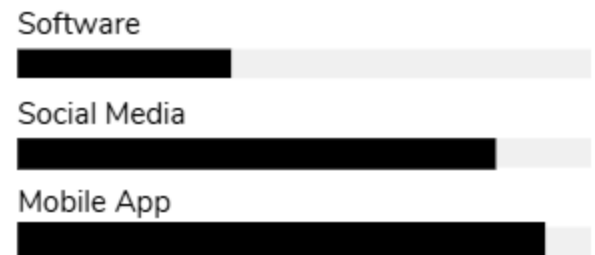

FRUSTRATIONS

Doesn't know where to start with all the parties and promises
Doubts if politicians will actually do what they say
Feels pressure because friends and family all vote differently

LARS

PROFILE

Gender : Male
Age : 20
Education : MBO student (first year)
Work : Part-time job in retail
Address : Almere

BIOGRAPHY

Lars is a 20-year-old MBO student living in Rotterdam. Outside of his studies, he works part-time in retail. Sergio is a passionate football. He enjoys eating out, discovering Dutch food, and spends much of his free time listening to podcasts or watching YouTube videos about history and economics. Curious by nature.

MOTIVATIONS

Lars is driven by curiosity and wants to expand his knowledge about culture, politics, and society. He values reliable information that is easy to access and appreciates clear explanations that make complex topics understandable.

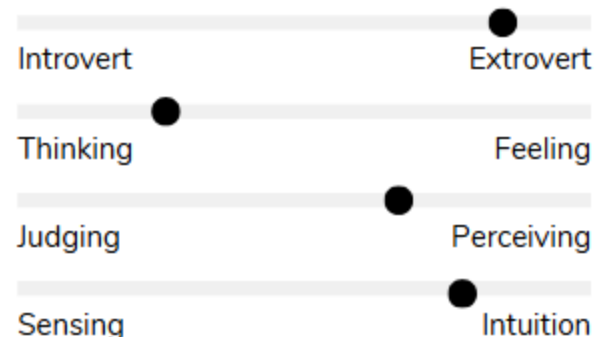

GOALS

Imrpove his understanding of politics and culture
Stay informed through reliable and accessible sources
Develop academically and socially during his MBO studies

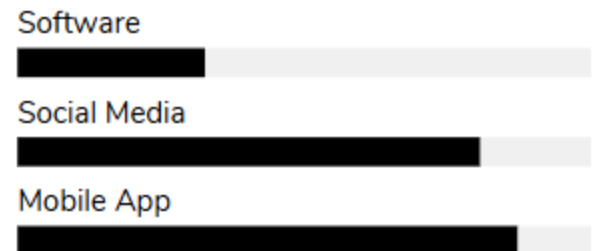

FRUSTRATIONS

Long or complicated text that doesn't get to the core point
Feeling left out when he doesn't understand political context
Websites that are messy or hard to navigate

Functional Requirements

Information on the website (must have)

- The system must show the results of the most recent elections, including seat distribution per party and vote percentages per region.
- The system must display election results using:
 - Bar charts for seat distribution per party
 - Pie charts for vote percentages per region
 - Sortable tables for party comparison and filtering by region
- The website will display graphs and tables to visualize the data of these votes.
- The user can filter this data by using a quiz; the quiz will act as a filter to the data, so the website only displays relevant data to the user.
- The user can use the footer to see the website's purpose, important links, and contact information.

User interaction (forum) (must have)

- Users can ask questions in the Q&A forum.
- Users can *post* answers
- Users can comment on posts
- Users can reply to answers.
- The forum is moderated for safety and reliability.
- Discussions are structured into categories with the use of tags.

Authentication & Authorization (must have)

- Users can register.
- Users can log in.
- Users will receive error messages if something goes wrong in the login/register process.
- Access to functionalities is role-based (user vs. admin).
- JWT authentication is used for secure access.

+

○

Functional Requirements

Administration (Admin) (should have)

- Admins can remove users
- Admins can delete forum posts
- Admins can add categories

Extra Features (should have)

- Localization connecting users to data
- Providing information about the Dutch political system
- Users can change their password
- Users can update their private details
- Account management (change password, update details).
- Expansion to elections in other EU countries.
- Reading information about the purpose of the website (About page)

Could have

- Quiz that matches user to a party.
- Account page where user edit personal details
- Displaying an overview of the parties and their beliefs
- Users can give likes to posts.
